

Net Mesh -01 Technical Specification

Production Type: Net Mesh -01

Raw materials: HDPE

Average Density: 330g/m²

Porosity / Permeability: 1.3%

Number of Layers: Three

Support Structure: Machinery Integrated Net Structure

Grating Plate: Not Regulated

Working environment: -20°C to 80°C

Resistance to aging: 15 years.

Flame delay properties: Not Regulated

Melting Point: 142°C

Useful life: 10 years

Wind speed reduction percentage: 85%

Emission reduction percentage: Not regulated

Minimal rate of dustfall: 85%

Maximum rate of dustfall: 90%

Size: 6*50m

Package: packed by Rolls in Big Bags.

Diameter: 50cm

Length: 6m

Unit G.W: 99 kg

Total Qty: 34 Rolls, 3366kgs; 10200 Square Meter
