Asunto: No se puede entregar: Notifica Resolución Exenta N° 1 / Rol D-283-2023

No se pudo entregar el mensaje a [Redacted]

No se encontró [Redacted]

notificaciones Office 365 [Redacted]
Acción necesaria Destinatario
Dirección Para desconocida

Solución

La dirección puede estar mal escrita o no existir. Pruebe una o varias de las acciones siguientes:

- Envíe el mensaje otra vez siguiendo estos pasos: en Outlook, abra este informe de no entrega (NDR) y elija **Enviar de nuevo** en la cinta de opciones Informe. En Outlook en la Web, seleccione este NDR y luego elija el vínculo "**Haga clic aquí para enviar este mensaje otra vez**". Después, elimine y vuelva a escribir la dirección completa del destinatario. Si se le ofrece una sugerencia de la lista de Autocompletar, no la seleccione. Después de escribir la dirección completa, haga clic en **Enviar**.
- Póngase en contacto con el destinatario (por teléfono, por ejemplo) para comprobar que la dirección es correcta.
- El destinatario puede haber establecido una dirección de reenvío de correo incorrecta. Pídale que compruebe que el reenvío que ha configurado funciona correctamente.
- Borre la lista de Autocompletar destinatarios en Outlook o Outlook en la Web siguiendo los pasos del artículo [Solucionar problemas de entrega para el código de error de correo electrónico 5.1.1 en Office 365](#) y después vuelva a enviar el mensaje. Escriba de nuevo la dirección completa del destinatario antes de seleccionar **Enviar**.

Más información para los administradores de correo electrónico

Código de estado: 554 5.4.14

Normalmente, este error se produce porque la dirección de correo del destinatario es

incorrecta o no existe en el dominio de destino. Esto suele poder solucionarlo el remitente. Sin embargo, a veces debe corregirlo el destinatario o el administrador de correo del destinatario. Si los pasos descritos en la sección **Cómo corregirlo** anterior no solucionan el problema y usted es el administrador de correo del destinatario, pruebe una o más de las siguientes acciones:

La dirección de correo existe y es correcta: confirme que la dirección del destinatario existe, es correcta y acepta mensajes.

Sincronice sus directorios: si su entorno es híbrido y usa sincronización de directorios, asegúrese de que la dirección de correo del destinatario esté correctamente sincronizada tanto en Office 365 como en el directorio local.

Regla de reenvío errónea: compruebe si alguna regla de reenvío no se comporta del modo esperado. Una regla de reenvío puede configurarla un administrador mediante reglas de flujo de correo o la configuración de dirección de reenvío del buzón, o un destinatario mediante la característica Reglas de bandeja de entrada.

La configuración del flujo del correo y los registros MX no son correctos: este error puede estar causado por una configuración incorrecta del flujo del correo o de los registros MX. Compruebe la configuración del flujo del correo de Office 365 y asegúrese de que el dominio y los conectores del flujo del correo estén configurados correctamente. Además, trabaje con su registrador de dominios para comprobar que los registros MX del dominio están configurados correctamente.

Detectado bucle de correo: este error también indica que la configuración de correo de la organización receptora no es correcta, lo que crea un bucle de correo cuando se envía un mensaje a una dirección que no se encuentra en su directorio. Esto no suele interrumpir el flujo de correo para destinatarios existentes, pero el administrador de correo electrónico del destinatario debe corregir la configuración para reducir el riesgo de que se produzcan otros problemas de flujo de correo. Una causa común de este bucle es que el dominio del destinatario esté configurado como "Retransmisión interna" cuando debería ser "Autoritativo". Otra causa común es que tanto el remitente como el destinatario sean parte de la misma organización, que el buzón del remitente esté alojado en Office 365 y el del destinatario lo esté de forma local, y que falte o esté mal configurado un conector de salida de Office 365 a los servidores de correo local. Para corregir este problema, el administrador de correo del destinatario debe crear y configurar correctamente un conector de salida en Office 365 que enrute el mensaje al buzón local.

Para obtener más información y sugerencias para solucionar este problema, vea [Solucionar problemas de entrega para el código de error de correo electrónico 5.4.14 en Office 365](#).

Detalles del mensaje original

Fecha de creación: 21-12-2023 20:37:20
Dirección del remitente: notificaciones@sma.gob.cl
